Constructing in Existing

Bachelor Advanced / TA.BA_B_BESTAND.H2302

Michael Johansson – Sista Sommaren (Last Summer), 2014

Veranstaltungen

Introduction

Sept 22 / 9:00 / E209a

Excursion I & II

Oct 21 / Nov 11

Modulverantwortung: Prof. Natalie Plagaro Cowee
Lehrteam: Prof. Natalie Plagaro Cowee
Assistierende: Marta Shtipkova, Nina Hug

Constructing in Existing (Bauen im Bestand – English Version)

Analysis work in small groups, study of projects dealing with the manifold complexity of constructing in the existing fabric. Focus on the architectural stance in dealing with the existing building stock, whereby the constructive, material and atmospheric aspects are considered in depth and presented by means of experimental, historical and contemporary study cases, reflecting the gained knowledge in own projects at the Design Studios. This course supports the following Design Studios with theoretical knowledge: “Building Inventory – Extended” and “Bestand”

For English version: Natalie Plagaro Cowee, natalie.plagaro@hslu.ch
For German version: Pascale Bellorini, pascale.bellorini@hslu.ch

It is strongly recommended to register for the 3 courses of the following Trilogy:

- “Building Inventory – Extended” or “Bestand”: Design Studio
- “Constructing in Existing”: it supports the Design Studio with theoretical background
- “Architect’s Presentation and Critical Reading Skills”: it gives support to the written exercise of “Constructing in Existing”
