Alpine Space

SIMPLIFY

SIMPLIFY

Building outside standards

Innovative, resource-efficient construction in the Alpine Space.

Duration Sep 2026 – Aug 2029

Countries AT, DE, IT, SI, FR, CH

12 Partners

SUPPORT BY THE EUROPEAN UNION
THROUGH THE INTERREG ALPINE SPACE PROGRAMME: € 1.694.467,20
TOTAL ELIGIBLE COSTS: € 2.319.279,60

WHAT & HOW?

A regional construction company wants to build an affordable, resource-efficient building. However, complex regulations and liability concerns pose a major barrier.

Through SIMPLIFY, researchers, construction professionals and public authorities develop practical solutions that make building approaches easier to implement within existing frameworks.

As a result, the company can complete its project, while SIMPLIFY's tools and guidance help other regions across the Alpine Space realize innovative, resource-efficient construction.

Understanding and visualizing

- Analyzing and mapping resource-efficient construction projects in the Alps
- Establishing a transnational knowledge platform
- Connecting experts

Developing and testing solutions

- Evaluating innovative construction methods (resources, costs, CO_2)
- Developing practical and transferable solutions
- Testing solutions in real-world construction projects

Breaking down barriers

- Identifying legal and administrative barriers
- Developing modular legal blueprints
- Supporting public authorities in simplifying permitting processes

BECOME PART OF THE NETWORK NOW

- Contributing practical expertise
- Networking with experts
- Advancing solutions together
